Preliminaries

- CIS4301 course web page
  
  http://www.cise.ufl.edu/~mschneid/Teaching/CIS4301_Fall2016/CIS4301_Fall2016.html

- Syllabus available on CIS 4301 course web page

- Apply for an Oracle account as fast as possible.

- In which situation should you ask whom for advice?
  - lecture, homework, and project questions: me and the TAs
  - Oracle contents questions: TAs
  - Oracle system questions: consult@cise.ufl.edu (system administrators)

- My messages to the class are communicated by a class mailing list.

- Some remarks with respect to the class project (contents, team formation, ...).

- Your questions ...
What I expect from you ...

- Read the syllabus.
- Attend the class regularly.
- Study and learn the material presented in the class *and* in the reference book.
- Learn also explanations and definitions given in mathematical terms.
- Perform well in the exams.
- Do the homework (alone).
- Do the software project (in a team).
- Don’t cheat.
