CEN 3031 Introduction to Software Engineering (SP2011)  
Final Individual Report  
Due: April 29, 2011, 11:55 pm  

MAX – 6 Pages(A4) Format: PDF

Q.1 Please describe your individual contribution to each phase of software development

1. Requirement Specification:

2. Software Design:

3. Implementation:

4. Documentation:

Please write one page (approx) for each of the aforementioned activities.

Q.2 Peer Evaluation: Please review your team-mates using the rating scale shown below. You must base this on your own observations throughout the term, the discussion section logs, and your team-mates individual accomplishment reports.

- Technical contributions made: The degree, to which your team-mate provided requirements and/or designs, wrote or debugged code, and produced documentation.
- Diligence and motivation: the degree to which your team-mate accomplished the goals set week-to-week, and in the project overall.
- Initiative and Leadership: the degree to which your team-mate showed initiative in solving problems, and helped keep the project running smoothly.

RATING SCALE:

Poor performance, little or no contribution. The team could have easily done the project without this person. [Assign 0 in the table]

Weak performance, a measurable but not significant contribution. With a little additional work, the team could have done without this person. [Assign 1 in the table]

Adequate performance, an average contribution. The team would have had to carry out a sizable amount of work to have done without this person. [Assign 2 in the table]
Very good performance, a significant, above average contribution. It would have been difficult to have done without this person. **Assign 3 in the table**

Excellent performance, including significant, essential contributions. It would have been very difficult or impossible to have done without this person. **Assign 4 in the table**
