Requirements for Admission as a Transfer Student

Bachelor of Science - Computer Engineering - Software (CEN)

Department of Computer and Information Science and Engineering
College of Engineering
University of Florida

Transfer students meeting the minimum requirements listed below will be considered for admission to the University of Florida, Department of Computer and Information Science and Engineering (CISE) in pursuit of a Bachelor of Science in Computer Engineering - Software. Requirements vary depending on the student’s institution.

**Minimum Requirements for Transfer Admission:**

1) - Florida public community/state college: 60 or more transferable hours + Assoc. of Arts degree
- regionally accredited institution: 60 or more transferable semester hours
- Florida nonpublic postsecondary institution: 60 transferable semester hours in Florida Statewide Course Numbering System

2) Overall GPA of 2.0 or higher

3) Completion of 6* of the 8 Critical Tracking courses prior to first term of enrollment at UF:
   - MAC2311 Calculus and Analytical Geometry I 4 credits
   - MAC2312 Calculus and Analytical Geometry II 4 credits
   - MAC2313 Calculus and Analytical Geometry III 4 credits
   - MAP2302 Differential Equations 3 credits
   - PHY2048 Physics w/ Calculus I 3 credits +PHY2048L** Physics I lab 1 credit
   - PHY2049 Physics w/ Calculus II 3 credits +PHY2049L** Physics II lab 1 credit
   - CHM2045 General Chemistry 3 credits +CHM2045L** Chemistry lab 1 credit
   - CHM2046 General Chemistry (2) and Qualitative Analysis 3 credits
   - OR Phys. or Bio. Science - Gen. Ed. course with (P) or (B) *** 3 credits

* PHY2048 + PHY2048L must be one of the minimum six completed tracking courses.
** Although labs are required CT courses, they are not computed in the Critical Tracking GPA.
*** Transfer students from a four-year academic institution are required to have a 2000-level (P) or (B) course.

4) Combined Critical Tracking GPA of 2.5 throughout the completion of all eight tracking courses
   - No more than two tracking courses can be repeated, no more than two attempts.
   - First attempts less than a C will not count in tracking GPA as long as a grade of C or better is earned in the second attempt.

Note: a dropped course (W) counts as an unsuccessful attempt.

Only students who satisfy the minimum requirements will be considered for conditional acceptance into the Computer Engineering-Software program. All conditionally accepted transfer students are required to complete their remaining Critical Tracking courses during their first term of enrollment at UF. It is **HIGHLY** recommended that students finish all eight Critical Tracking courses prior to their first term of enrollment at UF.

For additional information, contact CISE undergraduate advisors at ugadvisors@cise.ufl.edu or call 352-392-1090.

Revised February 2011
