Programming Language Concepts
COP 4020 | Section 9982 | Class Number 22156

Class Periods: T 8 [03:00 to 03:50 PM EST]; TR 9 [04:05 to 04:55 PM EST]; Location: PUGH 170 | Zoom [see Zoom Conferences and daily Modules in Canvas]  

Academic Term: Fall 2022

Instructor:
Pete Dobbins  
pjd@cise.ufl.edu  
352.294.6685

Virtual Office Hours [VOH]: M 8th [11:30 – 12:30 PM EST], T 10 – 11 AM EST, R 10th [6:30 – 8 PM EST]  
• All office hours will be held virtually via Zoom.  
• Here is Pete’s Zoom room: https://ufl.zoom.us/j/4755418272.  
• VOH will begin Monday, August 29, 2022.  
• During the first week of classes, Thursday, August 25, 2022 from 6 – 7 PM EST I will hold VOH to get things kicked off. If you any questions, please swing by the Zoom session and we will chat.

Outside of VOH, the best way to contact me is through our MS Teams chat. Everyone registered in our course will be added to the MS Teams chat after the drop/add period has ended. An announcement will be made in Canvas when Teams is available. From that point forward, announcements will be made in Teams. Please let me know if you have any questions.

Teaching Assistant/Peer Mentor/Supervised Teaching Student:  
Please contact the course staff through the course MS Teams chat. Announcements will be posted in MS Teams. Everyone will be added to our Team after drop/add has ended. Within our Canvas course shell, you will find the VOH schedule (Modules/General Course Info/Weekly VOH Schedule) and Zoom links for each staff member.

Course Description  
Introduces programming language principles, including language constructs, design goals, run-time structures, implementation techniques and exposure to a wide variety of programming paradigms. (M) 3 credit hours

Course Pre-Requisites / Co-Requisites  
Prerequisite: COP 3530

Course Objectives  
This course will discuss how programming languages are constructed and analyze the methodology used to create existing languages. Topics included are: lexical analysis, scanning, programmatic semantics, code generation, and different types of programming languages. Due to the nature and complexity of this field of study, the course will be time consuming and requires serious dedication on the part of each student. Be careful not to fall behind, success in this course requires consistent effort and practice.

Materials and Supply Fees  
There are no materials or supply fees for this course beyond the textbook. See the Required Textbook section below for purchasing details.

**Table 1: Semester Schedule**

### Attendance Policy, Class Expectations, and Make-Up Policy

**GENERAL**
Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies. Click here to read the university attendance policies:
[https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/](https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/)

Additional policies can be found here: [http://www.cise.ufl.edu/~pjd/admin/policies/course.html](http://www.cise.ufl.edu/~pjd/admin/policies/course.html). You are expected **know and follow** all these policies. In order to be successful in this course, you should attend and participate in our live lecture. There is no replacement to the experience of seeing the material presented during lecture.

**LECTURE**
Live lectures will be **presented synchronously using** two modalities, **in-person** in PUGH 170 and **virtually** through Zoom, during **T 8th period** [03:00 to 03:50 PM EST] and **TR 9th period** [04:05 to 04:55 PM EST]. Select the **Zoom Conferences** menu option in Canvas to join the synchronous virtual modality.

Here are course specific points of significance for our lecture process this semester:
- You are responsible for all material covered during lecture.
- Lecture attendance will not be taken (attendance is not mandatory).
- Lectures **will be recorded** and posted in Canvas under Modules (see the disclaimers and notice that follow).

**Participating in the live lecture presentation is optimal for maximizing your experience in any course.** Watching a recorded video of a lecture does not provide you the opportunity to engage with your instructor and classmates about the material. Live lecture is dynamic, while video recordings are static. So be very careful when deciding to rely upon only recorded materials for processing course content.

**Disclaimer #1:** many Zoom sessions are being held campus-wide to deliver courses and the demand for recorded materials is high. It is possible there will be delays while completing the recording and posting (distribution) process. **I will post live lecture recordings as soon possible [under the corresponding Canvas Module],** however if you want to ensure that you see the lecture as soon you are able, you should participate in the synchronous live lecture.

**Disclaimer #2:** the Zoom platform records these sessions and I cannot guarantee they will not experience errors in the recording process. I have not observed this to be a significant problem. However, you should always be aware that attending the live lecture session is always the best way to ensure you are able to view the complete lecture content.

**Notice:** Our lectures will be audio visually recorded for students in the course to reference after the live recorded session. Students who choose to participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be...
sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated. A textual “chat” feature is also available during lecture. “Chats” sent through the public channel may be recorded. If you wish to send a personal message to the instructor, do so through Teams [preferred] or email. Please note, since lecture is a public setting, private chats may or may not always be answerable during the live lecture. If your instructor is sharing their screen, even private chats sent through Zoom will be public while screen sharing is enabled. VOH are provided throughout the week to accommodate any private discussions that cannot be handled during a lecture session.

COVID-19 RESPONSE
These COVID-19 guidelines help create an effective learning environment and enhance everyone’s safety during our In-Person [face-to-face] interactions:

- UF recommends that members of our campus community and visitors wear masks in indoor, public settings and on transportation [UF guidelines and information: https://coronavirus.ufledu/university-updates/june-15-the-campus-brief.html].
- Reusable, disposable, N95, and KN95 masks are available for purchase at the UF Bookstore. Disposable and reusable masks are available for purchase at all Gator Dining locations. Additionally, masks are available for purchase from 50 vending machines across campus.
- If you are, or are concerned you might be, experiencing COVID-19 symptoms, click here for CDC guidance: https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html.
- If you are exposed to, or are experiencing, COVID-19 symptoms, follow these UF Health instructions: https://coronavirus.uflhealth.org/campus-testing/.
- Remember, the Student Health Care Center (SHCC – https://shcc.ufl.edu/) is free resource available to all UF students.

MAKE-UP/LATE WORK
Makeups or extensions for graded class activities are provided given appropriate documentation is presented in a timely fashion. Excused absences must be consistent with UF policies provided in the undergraduate catalog (https://catalog.uf.edu/UGRD/academic-regulations/attendance-policies/) and meet UF requirements regarding excused absences. There are very few events which would impede your participation in a graded activity warranting an exception, that you would not be aware of well before [at least a few hours] the start of the activity.

Instructor notifications provided by the Care Are of the Dean of Students office (DSO) are often not sufficient to excuse a course absence. Specifically, the instructor notification letter form the DSO must directly state that an “absence has been excused” and provide the excused dates. If the letter does not state this, then the student must provide the instructor directly with supplemental documentation that meets UF’s rules for an excused absence. Otherwise, the absence is not excused, and accommodations cannot be provided.

All excused quizzes will be made up at the same time, on the same cumulative Make Up quiz, for a 60 minute [1 hour] timeframe, and held In-Person on Thursday, December 15, 2022 starting at 3:00 PM EST and 4:00 PM EST in Pugh 170. Note, this is the first half of our UF assigned final exam period block.

In place of late submissions, makeups, or extensions on project assignments, you are allowed to drop multiple project milestones (see below for details).

Late homework: Here is the course policy for any scenarios where late homework submissions are possible. No work can be accepted after a solution is posted. If a solution has not been posted and you submit one day late, there will be a penalty of up to 50% on the graded work. No work that is two days late can be accepted. Note, if the assignment is due at 11:59 PM, then at 12:00 AM the work is one day late.

### Project Assignments

We will have a semester project split into 6 graded milestones (5 Parts) labelled P1 through P5 with Part 2 being split into 2a and 2b building to the final submission evaluation. Your two lowest project milestone scores [Part 1 through Part 5, including distinctly Part 2a and Part 2b] will automatically be dropped. However, the following parts of the project will require the previous part’s completion. The final project evaluation will evaluate the complete project [incorporating both the complete interpreter and compiler].

You may submit any project as many times as you need, however no late submissions will be accepted for grading. Dropping two project milestones provides you with flexibility should undocumented, and thus unexcused, exceptions arise.

Completing the project does not require that you work in a group. Optionally, you are allowed to work in a group of size 2. Group signup opens Wednesday, August 31, 2022 at 12:01 PM EST [after drop/add] and is completed through a Canvas Quiz. Prior to September 6, 2022 at 11:59 PM EST, groups are self-managed [you select to work individually, pick your project partner, or choose to be randomly assigned into a group by completing the Group Signup Quiz in Canvas]. After Tuesday, September 6, 2022 at 11:59 PM EST, I will randomly assign anyone not within a group into a group. Random assignments might lead to you being in a group of two or by yourself [a group of one]. Group signup (for both individual and partnered work) will begin after drop/add has ended. Signing up to define your
group structure (again for working *individually*, with a *partner*, or to be *randomly* assigned one of the two) will be your first participation activity (see below).

When working in a group, it is each student’s responsibility to manage their individual effort. If you find your group is not working effectively, you are allowed a one-time shift to working individually. This request must be made after Sunday, October 9, 2022 at 11:59 PM EST and before Monday, November 7, 2022 at 11:59 PM EST.

The penalties for submitting code that does not compile or does not execute are:

- 90 point / 90% max on the assignment if we can fix / hack your submission in 2 minutes or less.
- 75 point / 75% max on the assignment if we can fix / hack your submission in 15 minutes or less.
- 0 to 50 point / 0 to 50% max on assignments that cannot be fixed within 15 minutes.
- submitting to test submissions greatly reduces compilation and execution errors.

**Homework**

Homework activities are worth 10% of your grade and will be completed **individually**. They will be assigned and submitted through Canvas. There will be two homework assignments, supplementing your work on the project.

**Participation**

Your participation in the course is worth 15% of your grade and will be evaluated by your completion of participation activities. Spread across multiple activities, 19 participation points are possible. Each participation point is worth 1% of your grade. Therefore, to earn full participation credit, you are only required to earn 15 of the 19 possible points. The 4 additional participation points are provided so that you have flexibility in choosing which activities will show your participation.

To earn participation points for submitted code, your code must compile and not crash when executed.

The participation activities are:

- **Quizzes** [3]
  - held **In-Person** during lecture [4:05 – 4:55 PM]:
    - Q1: Thursday, September 29, 2022
    - Q2: Thursday, October 27, 2022
    - Q3: Thursday, November 17, 2022
  - 4 participation points each quiz,
  - total 12 participation points [3 quizzes × 4 participation points per quiz = 12 participation points],
  - open notes → **handwritten only**.
- Completing the Group Signup Quiz, to work with a *partner, individually*, or randomly assigned individual or group work on the project. See the Project Assignments section above. [1 participation point is available].
- Making a reasonable attempt and submission to the project milestone test submissions:
  - reasonable evaluated by >50% on the *last* test evaluation,
  - HWs, Modified Parser, and Final Project Evaluation **not** included,
  - in total, these comprise 6 participation activities [and 6 possible points].

**Grading Policy**

The range used to calculate your final letter grade in our course will be no harsher than this grading scale provided in the following table. Your final point total will be calculated using the percentages given in the Evaluation of Grades section. The percent you earn on each activity will be multiplied by the grade points associated with that activity.
More information on UF grading policy may be found at: 
https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/

Re-Grade Requests
All grading/re-grading issues must be resolved within 1 week of the graded work being returned. You must return exams/projects/quizzes to the person grading the activity in question, along with a printed (not handwritten) attachment stating the reasons for the re-grade. Do not write anything on the exam itself or detach (un-staple) the pages from each other. If you do so, your exam/project/quiz will not be re-graded. Note, when requesting a re-grade, the whole exam/project/quiz is subject to the re-grade, not just the portion you specify. We will be happy to discuss the solution and answer any questions, however no change will be made after the allotted week has passed.

Disclaimer
This document is subject to change at the discretion of the instructor, based on unforeseen circumstances (such as pandemics, hurricanes, sub-freezing temperatures... this is Florida after all, rifts in the fabric of time, and so on) occurring during the semester. Any such change would be introduced in order to better accommodate you due to the circumstances being experienced.

Students Requiring Accommodations
Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/students/get-started/ (352.392.8565, https://disability.ufl.edu/). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Once registered, the DRC provides documentation to instructors. Students should contact instructors to ensure documentation has been received as well as to discuss accommodation specifics so that everything can be setup. Students with disabilities should follow this procedure as early as possible in the semester, delaying may affect the ability to schedule the accommodation. All exams, quizzes, and so on administered through the DRC office must follow the course exam structure, being completed on the same date and time as the course exam.

Course Evaluation
Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gartorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluer.com/ufl/. Summaries of course evaluation results are available to students at https://gartorevals.aa.ufl.edu/public-results/.

In-Class Recording
Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.
A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

**University Honesty Policy**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code ([https://sccr.dso.ufl.edu/process/student-conduct-code/](https://sccr.dso.ufl.edu/process/student-conduct-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. If you have any questions or concerns, please consult with the instructor or TAs in this class.

**Commitment to a Safe and Inclusive Learning Environment**

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Jennifer Nappo, Director of Human Resources, 352-392-0904, jpenacc@ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

**Software Use**

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

**Student Privacy**

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: [https://registrar.ufl.edu/ferpa.html](https://registrar.ufl.edu/ferpa.html)

**Campus Resources:***

**Health and Wellness**

| U Matter, We Care: |

*Programming Language Concepts, COP 4020*  
Pete Dobbins, FA22  
Page 8  
v08/22/22
Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

**Counseling and Wellness Center:** [https://counseling.ufl.edu](https://counseling.ufl.edu), and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Discrimination, Harassment, Assault, or Violence**
If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the [Office of Title IX Compliance](https://titleix.ufl.edu/) located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

**Sexual Assault Recovery Services (SARS)**
Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or [http://www.police.ufl.edu/](http://www.police.ufl.edu/).

**COVID-19**
- You are expected to wear approved face coverings at all times during class and within buildings even if you are vaccinated.
- If you are sick, stay home and self-quarantine. Please visit the UF Health Screen, Test & Protect website about next steps, retake the questionnaire and schedule your test for no sooner than 24 hours after your symptoms began. Please call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 (or email covid@shcc.ufl.edu) to be evaluated for testing and to receive further instructions about returning to campus.
- If you are withheld from campus by the Department of Health through Screen, Test & Protect, you are not permitted to use any on campus facilities. Students attempting to attend campus activities when withheld from campus will be referred to the Dean of Students Office.
- UF Health Screen, Test & Protect offers guidance when you are sick, have been exposed to someone who has tested positive or have tested positive yourself. Visit the [UF Health Screen, Test & Protect website](https://coronavirus.uflhealth.org/screen-test-protect-2/frequently-asked-questions/covid-19-exposure-and-symptoms-who-do-i-call-if/) for more information.
- Please continue to follow healthy habits, including best practices like frequent hand washing. Following these practices is our responsibility as Gators.

**Academic Resources**

**E-learning technical support,** 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. [https://lss.at.ufl.edu/help.shtml](https://lss.at.ufl.edu/help.shtml).
