

CIS/CEN 4914 – Senior Design CISE Department – Spring 2016

Advisor's Evaluation of Student Project & Performance

It is respectfully requested that the advisor return a score for the final report and project combined. The composite score contains the following components, explained below:

Completeness of Project		10 points
Complexity of Project		10 points
Quality of Results		10 points
Quality of Final Report		20 points

Total Score		50 points

Completeness refers to the percent completion. For example, a project that is 60 percent complete would be scored 6/10 in the completeness category.

Complexity - Projects should be significantly complex. A *significant* project is one that is novel, well-developed, and useful to the project advisor. For example, a project that involves merely rewriting code or making a single Web page with few innovative features is not considered complex. In contrast, a major database system with Web interface as well as analysis and telecommunications modules would be considered complex.

Quality of Results - Do the project results hold together and perform well? Is the code buggy? For example, do Web pages crash or hang?

Quality of Report - It is recommended that student reports should be graded according to the advisor's understanding of a clear technical communication.

The Advisor is requested to complete the following form, to be attached by student to student's Final Report prior to submission to course supervisor.

This page does not need to be submitted to the course supervisor by the student, but the next page must be attached to the Final Report prior to submission to the course supervisor at the Final Presentation.

CIS/CEN 4914 Senior Design - Advisor Scoring Form/Questionnaire

Please Attach This Form to Student's Final Report or Fax to 352-392-1220

Semester (circle one): FALL **SPRING** SUMMER

Year: **2016**

Student Name _____

UF-ID[5:8] _ _ _ _

Part 1. Student's Project. Please score student's effort numerically. Do not use "A", "B", "C", etc. *Note that the Quality of Final Report is on a scale of 20 points, not 10 points.*

Completeness of Project ____ / 10 points

Complexity of Project ____ / 10 points

Quality of Results ____ / 10 points

Quality of Final Report ____ / 20 points

Part 2. Student's Performance. Please circle a number (1 = poor, 2 = fair, 3 = adequate, 4 = good, 5 = excellent) in response to the following questions about your student and your interaction with him/her either individually, or in a design group. *Note:* Circling *N* means that question is not applicable, or that you don't know:

- | | | | | | | |
|--|---|---|---|---|---|---|
| 1. Applied knowledge of math, science, or engineering: | 1 | 2 | 3 | 4 | 5 | N |
| 2. Designed/conducted experiments or organized/processed data: | 1 | 2 | 3 | 4 | 5 | N |
| 3. Designed systems, components or processes to meet needs: | 1 | 2 | 3 | 4 | 5 | N |
| 4. Functioned on multidisciplinary team or interacted well with you: | 1 | 2 | 3 | 4 | 5 | N |
| 5. Was responsible, diligent, and ethical on this project | 1 | 2 | 3 | 4 | 5 | N |
| 6. Used techniques, skills, and tools of modern engineering: | 1 | 2 | 3 | 4 | 5 | N |
| 7. Appeared to understand hardware-software interaction : | 1 | 2 | 3 | 4 | 5 | N |

Advisor Name _____ Date _____

Advisor Signature _____

Thank you for advising a Senior Design project!
